

Project Development Phase

Sprint 3

Date	9 November 2022
Team ID	PNT2022TMID01420
Project Name	Smart fashion recommender application
Maximum Marks	4 Marks

Building a Chatbot:

The screenshot displays the IBM Watson Assistant interface. On the left, a workflow editor shows a sequence of steps:

- Step 6: 'Continue to next step' (labeled 'see Number').
- Step 7: 'What color do you need?' with a 'Free text' input field.
- Step 8: 'Do you want to move this item to cart?' with a 'Confirmation' button.
- Step 9: 'Do u like to purchase anything else?' with a 'Yes' button.
- Step 10: 'Are you happy with ur purchase?' with a 'Confirmation' button.

 The main area shows the chatbot's current state:

- 'Step 1 is taken without conditions'.
- 'Assistant says: Are you looking dress for?' with buttons for 'Women' and 'Men'.
- 'And then' section with a 'Continue to next step' button.

 A 'Preview' button is visible at the bottom right of the interface.

Integrating Chatbot to the Application:

The screenshot shows a web application interface for a fashion store. The header includes a navigation bar with 'Giftskill', 'Home', 'Products', and 'About' links, along with a search bar. The main content area features a banner with the text 'Fashion with passion..' and a grid of five dress images. A chatbot interface is overlaid on the bottom right, displaying the message: 'Hi! I'm a virtual assistant. How can I help you today?'. The chatbot has a 'Close' button and a 'Send' button.
